Subject: Novice Training Information

Greetings from TKQMA!

We are excited about the 2010 racing season, but really excited about the class of NEW Drivers we have coming into the sport! There are 2 documents attached that will help you to understand the Novice Education Program, what it entails and when we will be meeting. Please remember that we are here to help you and will answer all of your questions.

Please direct your questions about the Novice Education Program to Steve Chick, Jr., Earl Wilcox or Steve Chick, Sr - who are all listed on the welcome letter. Our president's information is listed, as a courtesy for all members, but we will be solely responsible for your primary education in our sport.

We will be meeting at the Topeka Quarter Midget Track on the dates in the lesson plan. Please read the documents attached, preferably early this week, and let us know if you have any questions.

There is a lot of material to cover, not much time before the season starts and we will be working hard to get you all of the education and practice you need before the first event. Much of this is weather driven, therefore we will simply have to adapt to what we are given. However, this will be a fun, informative, well prepared program - so let's get ready to race!

PLEASE respond via e-mail to confirm your attendance intentions, so we can effectively plan for the class size.

Thanks, and we look forward to meeting all of you next week!

Steve Chick, Jr.
PR & Novice Director
